

# GAC International Moving

Moving solutions for the Middle East, Indian Subcontinent and beyond

When moving offices or homes locally or internationally, we ensure that every move is pre-planned and handled with the utmost care and attention

Delivering your strategy.

# HOME FROM HOME: GAC DELIVERS PEACE OF MIND FOR YOUR HOUSEHOLD MOVE

## Safe, secure storage

If your new home is not ready for you to move into as soon as you arrive, or your goods need to be stored before despatch, GAC offers secure storage facilities throughout the Middle East, India and Sri Lanka. We can store your goods in wooden storage boxes or in twenty foot steel containers (at selected locations).

## Marine transit insurance

Although we take every possible precaution during packing, we still recommend that you insure your possessions while they are in transit. We have negotiated a comprehensive, door-to-door insurance package with one of the industry's leading insurers for all air and sea shipments. Your GAC moving consultant will be able to tell you more.

We are affiliated with:

Moving house is a stressful business, and even more so when relocating to a new country. That's why at GAC International Moving, we take it personally. For us, it's not just about cargo, it's about people.

Moving is in itself a challenge, and we believe that you already have enough to think about. That's why we treat every item with care, and every move with pride. Throughout the Middle East, India and Sri Lanka you'll find modern GAC facilities and helpful GAC staff members, dedicated to ensuring that your moving experience is as stress free as possible.

We work with a global network of more than 300 well established and respected moving companies to meet your individual needs.

Your destination agent will have the professional experience and local knowledge to handle all customs clearance formalities and arrange delivery of your household goods to your new home.

#### **Committed to quality**

Quality is an ongoing process at GAC and we strive to ensure excellence and superior service on a daily basis. Our services are DNV-ISO 9001-2008 certified. Our offices in India

are IAM certified and our offices in Abu Dhabi, Bahrain, Dubai, Kuwait, Qatar and Oman have achieved FIDI (The International Federation of International Movers) standard – the only quality assurance standard for the international moving industry.

Accreditation follows independent audit of each station by Ernst&Young on behalf of FIDI, a Belgian-based organisation representing over 500 of the finest overseas moving companies around the world of which the six offices are members.

#### **Highly trained packers**

Packing for an overseas move is a specialist skill, and we have experienced, professional staff to help you at home or at your office.

Our full packing service combines traditional skills with the latest packing materials to ensure the safest possible journey for your belongings.

We prepare our clients with a realistic picture of the many aspects of the move, plan an effective execution process and provide a professional, flexible and innovative service to both corporate and private markets.

## **STRESS-FREE MOVING EXPERIENCE**

# **Cost-effective moving solutions**

To fully understand the requirements of your move, a GAC moving consultant will meet you at your home. He or she will then recommend the appropriate mode of shipment, discuss insurance options and provide a comprehensive written quotation for your move. Packing dates can also be scheduled at this time.

#### **Sole use container - Full Container Load shipment (FCL)**

After export packing has been completed, your shipment will be loaded into a steel shipping container, which will carry only your goods. Where access allows, it will be loaded and closed at your residence before being returned to the port of exit for loading on the next available vessel to your destination country.

#### **Cased shipment - Less than Container Load shipment (LCL)**

This method is used for sea freight shipment where a full container would not be cost-effective. Your goods will be loaded into a purpose built wooden shipping case at our warehouse. This will then be loaded into a steel shipping container and sent to your final destination.

## **SERVICES AT A GLANCE**

- Freight services
- Local & international moving
- Full packing services
- Full / less than container load shipments
- Commercial relocation
- Groupage shipments
- Door-to-door insurance
- Secure storage

### Shared use container (groupage / consolidated shipment)

For the most popular worldwide destinations, we offer a shared use container service to provide the most economic answer to your moving needs. Several shipments heading for the same destination are consolidated at our warehouse before being loaded into a shipping container. This is a particularly attractive option for customers with flexible moving / delivery dates and relatively small shipments.

### Air freight shipment

Although air freight as a general rule is more expensive than sea freight, it may be worth considering when sending a small shipment of essential items before your sea shipment is dispatched, or if you only have a relatively small shipment to send.

## Comprehensive range of moving solutions

### About the GAC Group

GAC is a global provider of integrated shipping, logistics and marine services. Emphasising world-class performance, a long-term approach, innovation, ethics and a strong human touch, GAC delivers a flexible and value-adding portfolio to help customers achieve their strategic goals.
