

GAC Defence Logistics

Delivering with military precision

Complete supply chain support for military and defence sectors, around the world, around the clock.

Delivering your strategy.

Getting equipment and supplies to the right place at the right time is paramount for military operations.

It is a demanding and complex task, which requires local capability combined with precision and dedication in meeting specific demands and tight deadlines. GAC meets the challenges – every time.

We have the experience, strength and expertise to handle complex moves or operations with discretion, speed and precision you require.

One experienced partner

GAC Defence Logistics offers a full range of shipping, marine, supply chain and logistics solutions tailor-made for the military and defence sectors. Our services are backed by long operations during the two Gulf wars and in other conflict areas.

We draw on our established track record and GAC Group's integrated global network to deliver with time-definite accuracy to locations of strategic significance to the military - without any security compromises.

Flexible total service package

Our end-to-end supply chain services can be customised to the specific needs of the military forces and other defence agencies, including supporting local and non-profit organisations, non-governmental organisations and international private industries.

GAC's logistics and marine assets and expertise also mean we can provide a wide range of important auxiliary services to support military operations.

Our theatre-of-operation specific expertise benefits tactical and strategic military logistics operations in several ways:

- war reserve management
- sorting, distribution and tracking of supplies into theatre
- IT systems and project management support
- track & trace IT system providing instant updates
- flexible approach to each assignment

As your single contact handling a full suite of services, GAC Defence Logistics focuses on every link within the supply chain. That's how we deliver equipment and supplies within budget, to the right place at the right time. Every time.

HIGHEST QUALITY, SECURITY AND SERVICE STANDARDS

GAC Defence Logistics solutions come with the GAC Code of Ethics, extensive Quality Management System and comprehensive Health and Safety policy.

Our services and operations are supported by a wealth of experienced industry experts around the world, accustomed to local regulations and practices, and are focused on minimising costs, optimising resources and meeting deadlines.

GAC has a strong Health, Safety, Security & Environment (HSSE) policy and holds a firm belief that good HSSE management is essential for the well-being of our customers, suppliers, subcontractors, their cargoes and our staff.

The GAC approach to quality management goes well beyond

the application of standard ISO certification. It involves continuous improvement, training and development of our services. Through our Quality Management System (QMS), GAC controls and monitors performance to ensure that the highest service level is provided to our customers.

Our Risk Management policy and practices identify hazards to operations and establish effective control measures to mitigate risk to acceptable levels.

Operational Security (OPSEC) is another integral component of our services. GAC ensures that logistics and shipping information is restricted to those who have both applicable clearances and a need-to-know.

Track record, global strength and specialised know-how to meet your speed, safety & quality needs
