

GAC Events Asia

Delivering impeccable logistics services to keep the shows going

Behind the scenes, GAC Events Asia takes centrestage.

Delivering your strategy.

An enormous amount of efforts and resources goes into the preparation for the few hours of glitz on stage. It takes weeks, or perhaps even months of careful planning, organising and meticulous follow-through to ensure the show can go on. GAC Events Asia has the experience and capability to undertake any event, big or small.

At “live” performances, audiences are gearing themselves for a total sensory experience – impressive stage set-up, state-of-the-art sound systems or even unexpected props are now de rigeur in shows.

Logistics is an integral part of what goes on behind the scenes, ensuring every piece of equipment arrives safely at the right place, at the right time – contributing to the success of every show.

To present those few hours of glitz and glitter on stage, GAC Events Asia’s dedicated team of specialists work round the clock behind the curtain to put the show together.

And these are operations that require specialist skills and tools to succeed. The costly and often fragile equipment such as sound systems, lighting, staging and other props are often one-of-its-kind.

Extensive track records

GAC Events Asia has established a track record of fast and efficient turnaround for jet-setting stars in the league of Jennifer Lopez and Guns & Roses on whirlwind performance tours. Our portfolio of clients has grown extensively to include pop bands, super stars as well as more high-browed performances, symphony orchestras and global meetings and conferences.

OUR PORTFOLIO INCLUDES:

PRECISION. CLOSE SUPERVISION. WE LEAVE NOTHING TO CHANCE

Together with our partners in Europe and the US, GAC Events Asia is dedicated to meeting the precise logistics requirements of event organisers, promoters and managers.

We are involved from the start of the planning phase, offering advice to tour promoters and production managers on the most cost-efficient mode to transport

specialist equipment such as sound systems, lighting, staging, musical instruments and other stage props. Our dedicated team then follows on every leg of the tour to lead and supervise the process, involving customs clearance, delivery to sites, collection from sites and packing, all carried out within a strict time frame.
